**STATEMENT OF INTEREST**

The subject matter of this proceeding is whether and to what extent municipalities must strictly comply with the requirements of the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 *et seq.* (the “TIF Act”) as applied to (1) the proceedings of the joint review board convened as part of the establishment of a tax increment financing (“TIF”) district and (2) the contiguity of parcels within a TIF district. The Court’s decision in this case will directly impact the ability of all school districts in the State to evaluate, review, and respond to TIF districts within their communities. As such, *Amici Curiae*, and in particular their membership, will be directly affected by the outcome of these proceedings. *Amici* are uniquely qualified to provide the Court with a valuable perspective on the issues raised by this appeal - issues which may not be addressed by the other parties.

*Amici* are the Illinois Association of School Boards, the Illinois Association of School Administrators, and the Illinois Association of School Business Officials. They represent the entities and individuals charged with governing and administrating public schools. In turn, these entities and individuals deal with the practical and financial impact of TIF districts on a frequent basis.

The Illinois Association of School Boards (“IASB”) is an incorporated, not-for-profit, voluntary association. It is organized under Article 23 of the School Code (105 ILCS 5/23-1 *et seq.*) to assist and train school board members in performing their statutory functions and to promote, support, and advance the interests of quality public education throughout Illinois. As the legislatively recognized statewide representative of local boards of education, IASB currently has 848 members, comprising over 99% of all public school

boards in the State. Collectively, IASB's member boards educate nearly two million students in Illinois.

The Illinois Association of School Administrators ("IASA") is an incorporated, not-for-profit, voluntary association whose primary goals include fostering the professional growth of its members to advance the interests of public education throughout Illinois. To this end, the IASA provides resources and professional development for school administrators, including training in legal compliance areas. Administrators in ninety-five percent of Illinois school districts are members of IASA.

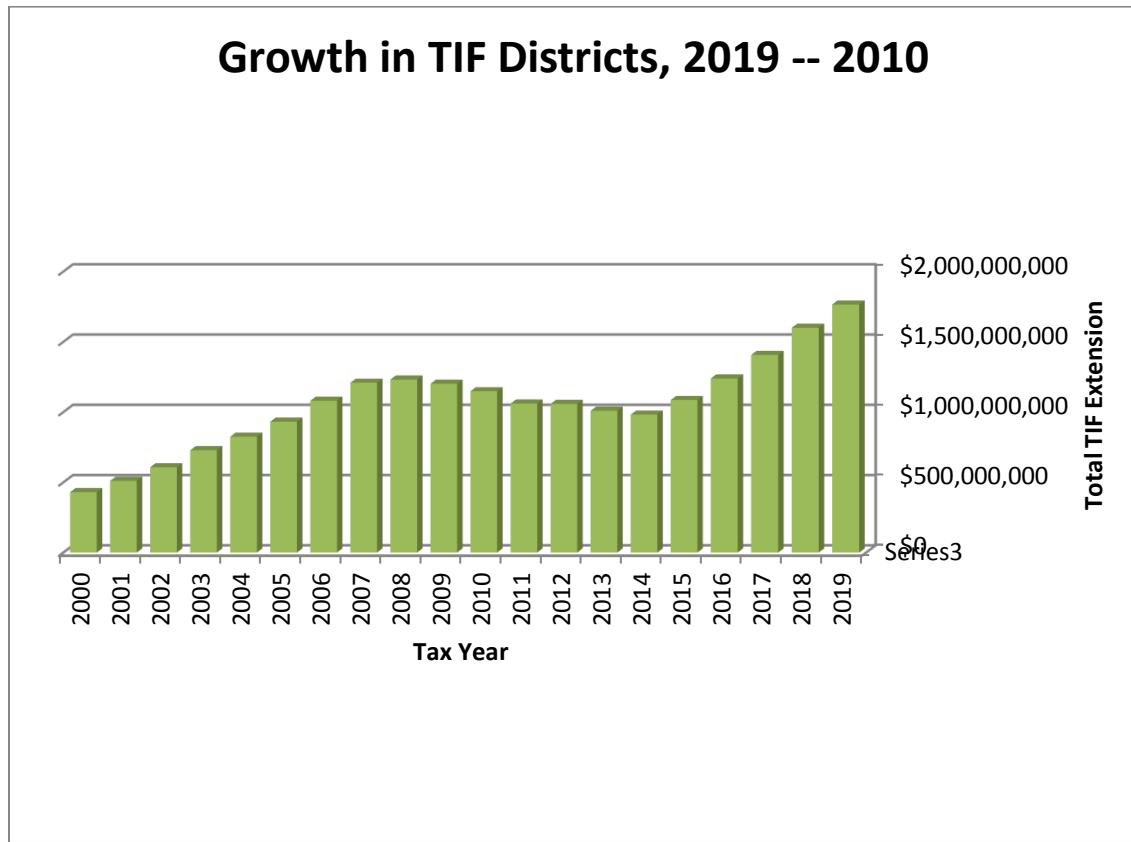

The Illinois Association of School Business Officials ("Illinois ASBO") is an incorporated, not-for-profit, voluntary association focused on providing professional development, services, and networking for its members regarding the business, finances, and operations of schools. Illinois ASBO has 1,427 public school employees as members, and it represents all positions from Illinois superintendents to support staff personnel.

In the past twenty years there has been a dramatic increase in the amount of tax revenue raised by TIF districts in Illinois. In 2000, total taxes extended in all Illinois TIF districts in the State was approximately \$430 million. By 2019, the most recent year for which data is available, the total taxes extended for TIF districts quadrupled to \$1.765 billion. (A1) This rate of increase far outpaces increases in collection of property taxes generally (up 106%) and the Consumer Price Index (up 48%) over the same period.

Further, the geographic pervasiveness of TIF districts cannot be understated. TIF districts exist in 99 of the 102 counties in Illinois, and as of 2019, there are +/-1,400 TIF districts in the State. (A2) And TIF districts cause taxes and tax rates to be higher than they otherwise would be with the rate increase reflected in the tax rates of all the other

taxing districts listed on a tax bill. This is accomplished without voter referendum, simply with the vote of a municipal council.

The table below from the Illinois Department of Revenue demonstrates this growth in TIF district taxation. Notably, for the past five years, the rate of increase has been at least 10% per year. Source: IL Dept. of Revenue Property Tax Statistics, Table 14A, Statewide Tax Increment Financial, 2000 to 2019.

A look at one school district is illustrative. Community Unit School District No. 300, situated primarily in Kane and McHenry Counties, with small portions of the District located in Cook and Dekalb Counties, has 31 TIF districts and two economic development areas (very similar to a TIF district) within its boundaries. The communities of Algonquin, Carpentersville, East Dundee, Gilberts, Hampshire, Hoffman Estates, Pingree Grove, and West Dundee have all established one or more TIF districts. These 33 districts collected

over \$14.5 million in property taxes in 2019 alone. Source: District's Annual TIF Report – 2019 Levy Year. (A37)

Illinois public school districts face a myriad of challenges, including the diversion of critical resources to TIF districts. Ensuring that TIF districts are formed consistent with the TIF Act, and in a manner providing an opportunity for a meaningful evaluation of the proposed TIF district, is fair and good public policy.

### **ARGUMENT**

*Amici* concur with the arguments set forth by the Appellee. The purpose of this brief is to highlight for the Court the practical importance of the joint review board process and why taking a ‘casual approach’ to those proceedings will be detrimental to all Illinois school districts, and the students they educate. This brief will also underscore that contiguity should be considered in the specific sense of the concept set forth in the TIF Act, rather than the more expansive view allowed for municipal annexations. With the significant growth in taxes raised by TIF districts, and the very large number and geographic reach of those districts, it is essential that the Courts hold municipalities to the strict requirements of the TIF Act so as to avoid a deleterious impact on K-12 public education.

**I. THE 30-DAY JOINT REVIEW BOARD PROCESS IS THE ONLY OPPORTUNITY FOR A TAXING DISTRICT TO EVALUATE AND BE HEARD ON A TIF DISTRICT BEFORE IT COMMENCES A 23-YEAR TERM.**

The joint review board (the “JRB”) is composed of the various taxing districts effected by the establishment of a TIF district – the community college district, the school districts, park and library districts, fire protection district and the county. The JRB provides a “recommendation” that is “advisory” and “non-binding”. 65 ILCS 5/11/74.4-5(b).

Despite these limitations, it is the only opportunity for a taxing district to be heard during the TIF district formation process. Once convened, the JRB's recommendation "shall be submitted to the municipality within 30 days...." *Id.* Notably, failure of the JRB to submit its report on a timely basis "shall not be cause to delay the public hearing or any other step in the process [of TIF district formation] but shall be deemed to constitute approval by the JRB of the matters before it." *Id.*

The life of a TIF district is 23 years. 65 ILCS 5/11/74.4-3.5. However, the TIF Act gives the taxing districts most affected by this 23-year term only 30 days to evaluate and respond to the municipality's proposal to establish the TIF district. Because of this mismatch between the time to evaluate (30 days) and the time that a school district has to live with a TIF district (8,395 days), it is imperative that the JRB process be meaningful and not approached casually by the municipality.

With approval from the General Assembly, 23 years is not necessarily the limit on the life of a TIF district. In 188 instances, TIF districts have been extended from 23 years to 35 years. The potential for an additional 12-year period is further reason why the JRB process is so important for school districts, and all the members of the JRB. 65 ILCS 5/11-74.4-3.5(c)(1)-(188). And further reason why non-compliance with the statutory requirements of the JRB process should not be excused.

Here, the City did not respect the JRB process or its prerogatives, and the result was a degradation of the school district's rights to conduct a meaningful review and fully participate in the TIF formation process during the limited 30-day period. As a matter of public policy, the City's actions and the impact upon local public schools should be unacceptable. Each of the City's transgressions resulted in a diminution of the rights of the

JRB members – failure to provide and post meeting agendas, failure to provide a space for the JRB to meet, refusing to “meet and confer” with the JRB following the negative recommendation on the TIF proposal, and prematurely approving the TIF district ordinances before the JRB had completed its work. It can be fairly said that the City ran roughshod over the JRB. Given the duration of a TIF district and the revenue that can be raised utilizing local government tax rates, strict adherence to the JRB process must be required.

**II. CONTIGUITY UNDER THE TIF ACT DOES NOT INCLUDE THE APPLICATION OF STATUTORY EXCEPTIONS LIKE ‘JUMPING’ ALLOWED ONLY FOR MUNICIPAL ANNEXATIONS.**

The TIF Act mandates that parcels included in a TIF district be “only those contiguous parcels of real property and improvements.” 65 ILCS 5/11-74.4-4(a). Contiguity means “tracts of land that touch or adjoin one another in a reasonably substantial physical sense.” *Henry County Board v. Village of Orion*, 278 Ill. App. 3d. 1058, 1067 (3<sup>rd</sup> Dist. 1996). The Appellate Court properly recognized the distinction between contiguity when establishing a TIF district and the same term for purposes of municipal annexations.

The Court rightly noted that while Section 11-74.4-4(a) and Section 7-1-1 of the Municipal Code both use the *Henry County Board* definition of “contiguity” for “contiguous”, only the Municipal Code expands that definition to include property separated by a “public utility right-of-way.” 65 ILCS 5/7-1-1. The plain language of Section 7-1-1 provides that “[f]or the purposes of this Article any territory to be annexed to a municipality shall be considered to be contiguous to the municipality notwithstanding that the territory is separated from the municipality by a ... public utility right-of-way,...

.” *Id.* No similar language can be found in the TIF Act when defining “contiguous”. The fact that the General Assembly has never expanded the definition of “contiguous” in the TIF Act to encompass the broader meaning specified in the Municipal Code should resonate with the Court.

Further examining the provisions of Section 7-1-1 of the Municipal Code, the General Assembly applied a distance limitation on the separation allowed when a municipality can ‘jump’ over strip parcels, like a public utility right-of-way. Section 7-1-1 defines a “strip parcel” as “no wider than 30 feet between the territory to be annexed and the municipal boundary.” 65 ILCS 5/7-1-1. Applying that guidance from the General Assembly, the City is asking this Court to permit a ‘jump’ of almost 235 feet. The dimensional restriction reflected in the Municipal Code buttresses the wisdom of the Appellate Court in rejecting the significant leap requested by the City.

The clear distinction in what constitutes contiguity between the TIF Act and the Municipal Code supports the ruling from the Appellate Court and allows for a harmonious reading of both statutes.

### **CONCLUSION**

For the foregoing reasons, as well as those contained in the brief of the Appellee, this Court should affirm the decision of the Appellate Court, hold that the TIF district was improperly formed and void *ab initio*, and grant such other relief as the Court deems just.

Respectfully submitted,

By: /s/ Ares G. Dalianis
