Ontario Domestic Assault Risk Assessment (ODARA)

The Ontario Domestic Assault Risk Assessment (ODARA) is an actuarial risk assessment tool that ranks men with respect to risk for domestic violence recidivism. The higher the score, the more likely the man is to assault a female cohabitating partner again, the more frequent and severe future assaults will be and the sooner it will occur.

ODARA Assessment Summary:	
Confinement of the victim at the index assault	
Threat to harm or kill at the index assault	
Victim concern about future assaults	
More than one child	
Victim's biological child from a previous partner	
Assault on victim while she was pregnant	
Two or more indicators of substance abuse	
Barriers to victim support	
Prior violent incident against a non-domestic victim	
Prior domestic incident of assault in a police or criminal record	
Prior non-domestic incident of assault in a police or criminal record	
Prior custodial sentence of 30 days or more
