Trial Court Public Facing Codes

Section 1 **Introduction**

The purpose of this document is to define and make available uniform Public-Facing filing codes for filers to use in all Illinois trial courts when e-filing through eFileIL. The Public-Facing codes are considered and approved by a workgroup consisting of clerks and court officials. Filers select from the Public-Facing codes when submitting documents. The filing codes are then cross referenced to each court's case management system.

Section 1.1

<u>Versions</u>	<u>Action</u>	<u>Released</u>
Version 1.0	Initial Draft	July, 2016
Version 1.0	Civil Case Types	January, 2017
Version 1.1	Criminal/Juvenile	December, 2017
Version 1.2	General Updates	March, 2018
Version 1.3	General Updates	September, 2018

Section 2 **eFiling Filing Configurations**

The Supreme Court's eFileIL initiative requires each court to integrate their CMS with eFileIL in order to exchanged case information and documents. A court may choose to not make available (or hide) Public-facing codes listed in this document if they are not used in their jurisdiction. The Public-Facing codes are to provide filers with a uniform set of codes to use when filing in each court and are NOT required or intended to be a standard for a court's case management or document management system.

The Workgroup meets throughout the year to consider changes to the public-facing filing codes. The following procedures are used to manage Public-Facing Codes:

- Clerks can work with Tyler to hide or remove Public-facing codes that do not apply to their jurisdiction.
- Tyler will not add Public-Facing Codes for a jurisdiction without approval by the AOIC.
- All Public-facing codes must be approved by the Workgroup to permanently add them for use by all courts.
- Once approved by the Workgroup, a revised set of Trial Court Public-Facing Codes will be posted on the eFileIL website for use by courts and CMS partners.

Section 2.1 **Use of Temporary Codes**

A process has been created for courts to add Temporary codes that will be considered by the Workgroup, but have yet to be approved for use in all courts. The intent is to allow courts to address an immediate workflow if the codes they are suggesting have merit. However, the use / addition of Temporary Codes does not imply statewide adoption and could require the requesting court to remove them or make them 'Court-Use Only' codes if the Workgroup does not approve them for statewide use.

Process for Using Temporary Codes for your Jurisdiction:

- 1) Submit a request for the Temporary Code(s) to: eFileILFilingCodeRequests@illinoiscourts.gov
- 2) The AOIC will contact you to understand and discuss the use of the proposed codes and options if not approved.
- 3) If the discussion yields merit in the proposed codes, the AOIC will instruct Tyler to add the Temporary Codes for that jurisdiction only.
- 4) The Workgroup will consider all Temporary Codes request yielding a new revision of the Public-Facing codes.
- 5) Jurisdiction using Temporary codes will take immediate action depending on the Workgroups new code set.

Temp. Codes: [Temporary Codes Requested](#)

Section 2.2 **Return for Correction**

Filings which cannot be accepted may be returned and include a request by the Circuit Clerk to have corrections made. Supreme Court Rule, Illinois Statute or court order may require certain document parameters for electronic filings. Once a filing has been corrected, the filer should resubmit for review by the Circuit Clerk. Reasons filings may be returned for correction include:

- Incorrect Fees
- Incorrect Venue
- Multiple Filings Submitted as One Transaction
- Single Filing Submitted as Multiple Transactions
- Case Transferred to Another Court
- Format Error

This list should not be considered to be exhaustive or required. Local procedure may provide for fewer or additional correction requests. eFileIL Electronic Document Standards can be found at: http://efile.illinoiscourts.gov/documents/eFileIL_Digital-Media-Standards.pdf.
